Fans of *CSI: Miami* will certainly want to tune in Halloween night! Sleuth-star **Eva La Rue** told *On The Red Carpet* that the fright night episode get pretty wild.

“We’re doing a whole lot more running and jumping and tackling, and getting the bad guy. It’s been really exciting,” she said. **“And you have to specifically tune in to the Halloween episode, because it’s really creepy. And I take shots at my fellow co-workers, and I won’t tell you why.”**

We caught up with the actress at the annual **Diamond and Pearl Ball**, put on by the **Beckstrand Cancer Foundation**, to raise money for patients fighting cancer.

“They come in and they help with everything. From gas, or hotel stays. If you’re having to stay close to the hospital if you’re getting treatment, everything. So it actually helps the individual. And I love that,” she told us.
